

Citromax

Group

**Live Naturally,
Live Citromax.**

Vertically

**All the way from
the grove to your
doorstep, Citromax
oversees planting,
harvesting, production,
and processing.**

Integrated

For over half a century, Citromax has been vertically integrating its business based on a customer-centric approach. With a core competency in citrus oils, oil blends, natural and organic oils, and flavorings, Citromax has expanded its business over the years. It has become the 1st organic lemon producer worldwide and the 3rd largest lemon processor in the world. Nowadays, Citromax has full control over the entire production process, allowing us to ensure consistent quality, optimize efficiency, and provide customers with unparalleled citrus products for their industrial needs.

Essential LEMON Oil

**Shelf Life: Minimum
of 2 years when
properly stored.**

Our extensive product range includes premium offerings such as lemon essence oil, aqueous aroma phase, and distilled lemon oil. Additionally, we take pride in supplying a wide variety of other superior citrus oils, folded oils, and fractions.

Our commitment to excellence ensures that each product is meticulously crafted to meet the highest industry standards, providing our customers with exceptional citrus solutions for their specific needs.

ORGANIC

As the world's leading producer of organic lemons, Citromax is proud to offer organic oils, juices, and by-products as part of our commitment to sustainable and organic practices. Enjoy the same exceptional flavor and quality while embracing the benefits of organic agriculture!

Clearmax™

Whether you require a specific citrus oil or fraction to elevate taste and aroma in flavor and fragrance applications, CLEARMAX™ has got you covered.

Under the Citromax Group trademark, CLEARMAX™ offers a comprehensive line of distilled citrus oils and fractions. These natural decolorized citrus products have been specially crafted to enhance aroma by removing nonvolatile components, resulting in a more concentrated and impactful sensory experience. For a complete line of these unique citrus oils and fractions, scan the QR.

Essential Lemon Oil

LEMON Juices

Standard trading level:
400 gpl., customizable
up to 600 gpl. Shelf life:
2 years at -18°C.

CONCENTRATED CLARIFIED LEMON JUICE

Our Concentrated Clarified Lemon Juice is a superior product that combines purity and exceptional flavor. Through our advanced ultra-filtration process, we create a concentrated lemon juice that captures the characteristic appearance, aroma, and clean taste of freshly squeezed lemons. Crafted from 100% natural, fresh, and wholesome fruit of the specified variety, our product remains unmodified, ensuring its authentic essence. We can customize your product's citric acid content to meet your specific preferences and requirements.

NFC FOR PREMIUM BEVERAGES

Not From Concentrate (NFC) is an unconcentrated squeezed lemon juice that captures the full spectrum of flavor and aroma components extracted directly from the fruit.

Understanding that texture plays a significant role in beverage enjoyment, we can tailor the amount of pulp per liter of juice according to your preferences. Whether you desire a smooth and refined texture or a more pulpy experience, we can accommodate your specific requirements. Our NFC Juice can be conveniently marketed frozen, ensuring optimal preservation of freshness and flavor, or in aseptic packaging.

Shelf Life: 2 years when stored frozen (-18°C) or 1 year aseptic.

Lemon Juices

Standard trading level:
400 gpl., customizable
up to 570gpl. Pulp: 0.1%
to 10% per liter, tailored
to preferences. Shelf Life:
3 years at -18°C.

CONCENTRATED CLOUDY LEMON JUICE

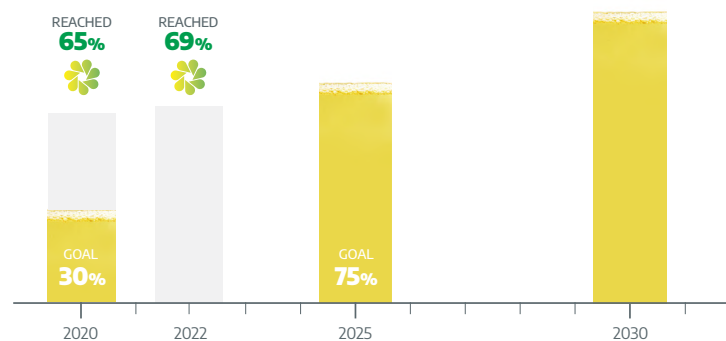

Crafted from 100% natural, fresh, and wholesome fruit, our Concentrated Lemon Juice retains the characteristic appearance, aroma, and clean taste of freshly squeezed lemons. It is free from genetic manipulation and does not contain any food additives, providing a pure and unmodified beverage ingredient.

Our Concentrated Cloudy Lemon Juice is specially formulated to maintain its cloud stability, ensuring a visually appealing and consistent product. Through careful processing using only physical means, we preserve the quality without the need for chemical additives. We offer the flexibility to tailor your product's citric acid levels or adjust the pulp quantity per liter of juice according to your particular preferences and needs.

SUSTAINABLE JUICE COVENANT

Citromax is part of the Sustainable Juices Covenant, contributing to several Sustainable Development Goals (SDGs) that set new challenges for our operations. These goals include addressing climate change, conserving natural habitats, promoting biodiversity, and striving for gender equality, among others.

We have committed to 100% sustainable juice volumes by 2030.

Lemon Juices

Dehydrated LEMON Peel

Moisture ranges from 8 to 12%, tailored to preferences. Shelf life: 3 years when properly stored.

ONE OF THE MAIN SOURCES OF PECTIN ON THE MARKET

Our Dehydrated Lemon Peel stands out as one of the primary sources of pectin available, making it an excellent addition to dietary needs. Derived through a meticulous process of rasping the oil and extracting the juice from the fruit, the remaining peel portion—primarily composed of the white albedo—undergoes a gentle heat-drying process to eliminate moisture. This process results in a dried albedo that boasts an impressive pectin content of over 30%, establishing it as a powerhouse source of beneficial fruit fiber.

Featuring a small particle size range and completely devoid of essential oils, our Dehydrated Lemon Peel is perfect for further processing or integration into various commercial food applications. Rest assured, we guarantee impeccable microbiological quality, providing you with a premium product that's both reliable and versatile.

LEMON Pulp Cells

Shelf Life: 2 years
when stored frozen
(- 18°C) or
1 year aseptic.

ADDS FRESHNESS TO ANY JUICE OR BEVERAGE

Our Lemon Pulp Cells are crafted exclusively from 100% natural, fresh, and wholesome fruit, ensuring their unaltered and unmodified essence. To maintain the utmost quality, frozen and aseptic Lemon Pulp Cells undergo pasteurization, effectively reducing microbiological activity. Rest assured, it fully complies with the authenticity criteria set forth by FDA/USA legislation and EU Directives, guaranteeing its purity and being free from pollutants. Furthermore, our product has a clean composition, completely devoid of any food additives.

We strictly adhere to stringent pesticide and agrochemical residue standards established by renowned international organizations and regulatory bodies, including SENASA (Argentina), MERCOSUR, CODEX ALIMENTARIUS, FAO/WHO, EPA (USA), and EU guidelines. Additionally, we comply with the Positive List (Japan) and other relevant regulations from various countries. It's noteworthy that our pesticide and agrochemical usage remains well below the required average set by Japan, the United States, and other nations. Moreover, all of our products can be ordered as organic lemons upon request.

OUR FIGURES

OVER 1 MILLION LEMON TREES

NURSERY
79,708

final plants produced
in our nursery

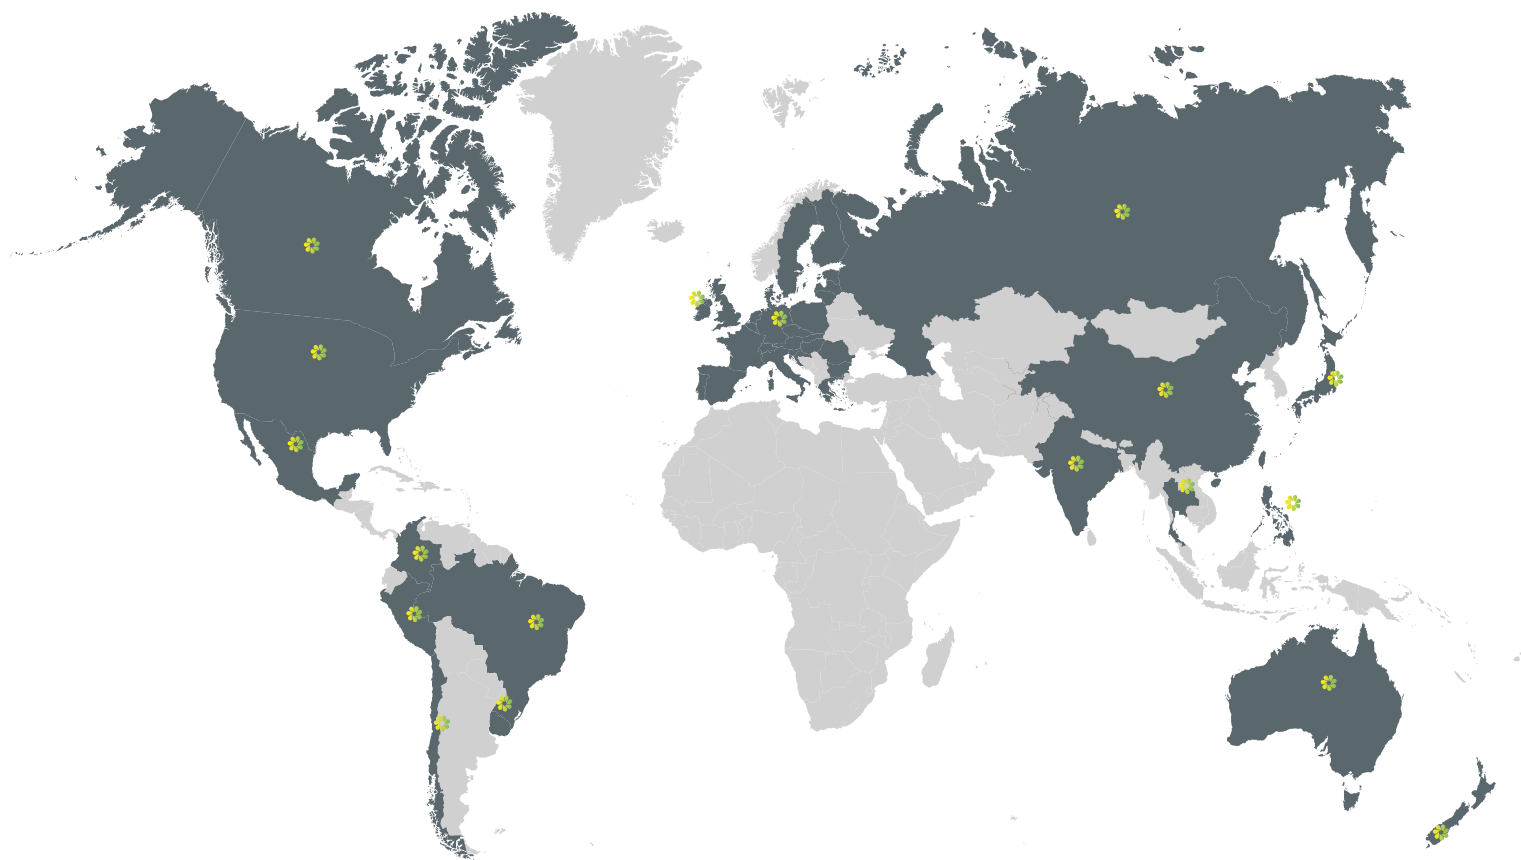

ORCHARDS
4,865

hectares of citrus
(11,000 acres)

PROCESSING FACILITY
210,000

tons of fruit
per year

Industrialized products derived from lemon are present on four continents, positioning Citromax as a leading exporter of concentrated juices, pulps, essential oils, and dehydrated peels.

SUSTAINABILITY

WE HAVE A PLAN TO MAKE CITROMAX CARBON NEUTRAL

As a nature-based enterprise, we are acutely aware of the consequences of climate change. This global issue demands efforts from all of us. To contribute on our own scale, Citromax is actively assessing the carbon stock of all our farms in Argentina and conducting inventories of the carbon footprint of each of our products. By doing so, we are setting a roadmap for implementing targeted strategies to reduce emissions and use the extra capacity of our farms to offset the carbon footprint of all our family companies.

60% OF CITROMAX LANDS ARE PROTECTED HABITATS AND ECOSYSTEMS.

At Citromax, we hold a deep commitment to environmental sustainability and the preservation of our natural resources. For this purpose, we allocate 60% of our total land in Tucumán, Argentina, to the preservation of natural habitats, biodiversity, and ecosystems. The remaining 40% serves as productive areas for organic and conventional fresh lemons.

Moreover, through our partnership with the Proyungas Foundation, we actively contribute to biodiversity conservation by preserving plant and animal species, many of which are at risk of extinction.
